Take a screenshot of your virtual machine settings. You screenshot must show all the settings of your VM.
Question 3 | Install Ubuntu 22.04
For installing Ubuntu 22.04 in your virtual machine. Make sure to go over the presentation "Installing Ubuntu 20.04 in VirtualBox" where I have laid out every step explained. I will do it in the video as well but it will benefit you more to read the presentation.
Take a screenshot of the last screen before rebooting Ubuntu.
Question 4 | Post Installation Tasks
These are the tasks that you need to complete before taking the screenshots:
Update and upgrade
Add canonical partners in the software settings
Set update daily reminder to never
